by an experienced chef will
assure the best of meals and
the prices cannot be lower
anywhere. Try and see.

Our Ice Cream and Soda
Fountain Department is growing
rapidly in public favor,
the splendid premises, the
prompt and expert service and
exceptionally reasonable
prices appealing to patrons.

You can make no mistake in
giving The Savoy a trial.

Binders Will Hum in Big Crop During the Coming Week

Although the days have been warm during the past week, exceptionally cool nights have delayed the ripening of the wheat slightly longer than was expected and assisted the filling process materially. While many binders are in operation cutting will not be fairly general before the first of the week, and many fields will be later. While early yields of oats vary considerably, running from twenty-five to fifty bushels per acre, the crop on the whole is admittedly a splendid one, and in a financial sense promises results highly satisfactory to everyone concerned. In many instances this year's crop will be worth more than the value previously placed on the land which is growing it, and a general improvement in land prices may be expected as a result. The weather is proving satisfactory and no damage of any kind is now anticipated. The year 1926 will be a red letter one for Champion.

Present Silver to

Mrs. G. Stoddart

No More Wed.

Half-Holidays

A delightful afternoon was spent on Friday at the home of Mrs. J. Barker, when a large number of members of the Ladies' Aid and Women's Institute and Old Timers Club gathered to do honor to Mrs. George Stoddart, who left on Monday to live in Calgary. A social time with solos by Mrs. C. McLean and Mrs. J. McLeod accompanied by Miss Ella Stephenson at the piano, was greatly enjoyed. Mrs. C. Barker president of the W. I. made the presentation of a dozen silver teaspoons and a half dozen tablespoons in the Adam's pattern. Mrs. Stoddart thanked the friends for the beautiful gift and expressed her deep regret that circumstances called her away from her dear old friends. Refreshments were served and the good things taken of when all joined in "For She's a Jolly Good Fellow" and good wishes to the departing member.

The W.I. meeting, which was to have been held on Tuesday, Aug. 10, has been postponed to Wednesday, Aug. 11th, in account of the Carmangay fair and will be held at the home of Mrs. J. N. Beaubier.

Trevethick, who accompanied a local party on a trout fishing expedition recently, returned with a big fish story that the whole party must have concentrated on during their trip. Its prominent features, too, indicated the projection of a midsummer night's dream into its composition. Ask Fred about it.

There has been much discussion in the streets as to whom is the best band in town at setting up binders. The majority picked on H. Cooper as the most ingenious among these artists, as he invariably improves upon the ideas the makers had conceived, while the others introduce nothing new in their work worthy of notice.

A great future and wide advertising for Champion as a golf centre is a certainty when such enthusiasts as Wylie McIntyre and Howard Hammell live here. When they have surmounted the difficulties presented by the local course they should be able to put protestations to shame under the conditions that prevail on ordinary links, and both should develop the eagle eye.

The Wednesday half-holiday will be discontinued in future, owing to the harvest season. In consequence all the stores will be open on Wednesday, Aug. 11th and thereafter.

Quite a number from here attended the circus at Lethbridge on Wednesday.

W. G. Giggs, of Calgary, is relieving Frank Johnson in the barber shop during the latter's illness.

Messrs. Moffatt, Henderson, Campbell and Spence returned from their holiday trip to the coast on Wednesday night, having enjoyed a splendid outing.

Rev. R. J. Morris will hold service in the United church on Sunday evening and members of his congregation as well as the public at large are requested to attend.

Mr. and Mrs. J. Giolo and family left on Sunday for Bellvue, where Mr. Giolo has purchased an hotel and will reside in future. Many friends here wish them prosperity in their new home.

Practically all those who have been away on holiday trips are home again, and interest now centres in the big preparations made for harvest, which are naturally more extensive this year than usual.

Apparently all the candidates in Grade XI from Champion secured passes, some with conditions. In Grade XII, Edna and Augusta McNaughton, Genevieve Harper, Kathleen Watkins passed with conditions.

Mrs. H. Johnson entertained a large number of the young folks on Tuesday evening in honor of the Misses Stoddart, and Buster Stoddart, who leave soon for Calgary. An exceptionally pleasant evening resulted.

Twice in generous quantity arrived this week, binders have been going out steadily and everything is ready for extensive cutting operations, a beginning being made already, with a general movement expected on Monday.

The soil surveys being made under the joint auspices of the Provincial Department of Agriculture and the University of Alberta are progressing, the first survey being made in the territory west of Youngstown. This is the third year in which soil surveys have been conducted.

Preserving Sealers

THIS WEEK

Special Sealers of
Special Quality at
Special Prices!

Commercial rates on application.

THURSDAY, AUG. 5, 1926

NOTES AND COMMENT.

Writing an account of the Battle River convention for the U.F.A. E. J. Garland, late member for Bow River, has the following to say:

"Tanned, healthy looking, bright-eyed, proudly determined faces, and a general air of confidence, marked the constituency flowed into the town on the previous day. Many others arrived on the morning of the convention. At a glance one recognized the splendid types of our U.F.A. is developed. Many indeed of them bear the impress of power quietly resting in their clear eyes and grim mouths, a knowledge that theirs was the cause of right to be exercised intelligently, without fear and with justice."

Right there it must have perched the Almighty that no common or garden heaven would do for this super-human U.F.A. production, and that might have been a few words the delegates who had put the big potatoes on top of the bag, or introduced a few of the eggs found under the hen who stole her nest away and sat on the eggs for a week or two, is it possible Satan decided he would have to provide specially for the class conscious.

The disposition to take a mid-summer holiday has grown more general of late years and almost everyone makes an effort to get away from business or other occupation for a short time, at least. There is no possible doubt as to the benefit of the holidays to the average person. "A change is as good as a rest," and while many of the trips taken are strenuous, those participating return to their regular work with renewed energy.

A party of fourteen officials and geologists of the Marland Oil Co. of the United States, have arrived in the province and will make preliminary arrangements for an extensive search for oil fields in Alberta, in connection with the partnership that has been formed with the Hudson Bay Co., to develop possible oil fields on the lands of that company. The operations of the company will extend over a period of years and considerable development is likely to result.

During the past week checks totalling \$9,000,000 were forwarded to members of the Alberta Wheat Pool as second in-

GOVERNMENT LIQUOR CONTROL ACT OF ALBERTA

APPLICATION FOR BEER LICENSE

PUBLIC NOTICE is hereby given that the following conditions applying to the Alberta Liquor Control Board for a license to sell beer by the glass or open bottle for consumption in conformity with the provisions of the Government Liquor Control Act of Alberta and the regulations made thereunder with respect to the following premises:

The hotel premises known as the Savoy Hotel situated on Lots 1 to 7 inclusive in block 3 according to a Plan of the Town of Champion of record in the Land Titles Office for the South Alberta Land Registration District as Champion 0905 A.G.

PRAIRIE HOTELS LIMITED,
E. LaRouche, Manager,
Applicant.

PUBLIC INSTITUTIONS

Galt Hospital, Lethbridge

First-class Hospital Services at reasonable rates.

Private, Semi-Private, and Public Ward accommodation for surgical and medical cases.

Separate Case Room for obstetrical cases.

X-Ray, Bio-Chemical Laboratory, and all modern hospital facilities controlled by fully trained operators.

Registered Graduate Nurses in charge of each floor.

Under the direction of Provincial Department of Public Health affording maximum protection to public.

School for nurses.

Inspection invited. Write for full particulars. Enquiries willingly answered.

Term payment on 1925 wheat. The further or final payment will be distributed sometime in the fall.

Steel is now being laid on the new branch line of the C.P.R. from Cardston to Glenwood, in the south-western corner of the province, and the line will likely be complete for its 30-mile length in time to handle the present crop.

Canada's Importance
As a Gold Producer

There has been a steady increase in the gold production of Canada during the last decade, due largely to the discovery of the new gold fields in Northern Ontario. This rate of increase is likely to be sustained for some years to come not alone because of the production that will come from properties now undergoing development but also because of production from the new Rouyn fields in western Quebec, and from the newly discovered Red Lake area in western Ontario. Last year (1925) the total production in all Canada was 1,740,389 fine ounces of gold valued at \$85,900,070. Approximately 8 per cent of this production was obtained from the mines of Porcupine and Kirkland Lake in northern Ontario, and 13 per cent from British Columbia.

Canada's total recorded production of gold since the year 1858 now amounts to \$850,730,381. The world's total production of gold has been declining since 1912, but the Canadian output is still increasing annually, and since 1922 Canada has stood third among the countries of the world as a producer of this precious metal.

The present output is at the rate of nearly \$100,000 per day and this rate will probably continue to rise for some years.

The discoveries made in the Porcupine and Kirkland Lake areas during the period 1905-1920 has disclosed the most important new gold producing area found anywhere in the world during the last quarter century. The importance of Canada as a gold producer has increased steadily in recent years by the discoveries and development work now taking place western Quebec and by the discovery of auriferous ores in the Red Lake district of Ontario last summer. The future of Canada's gold production is still bright for further discoveries beneath the immensus unexplored territory underlain by ancient crystalline rocks in associations similar to those found in the producing areas.—Natural Resources.

Migratory Birds
Convention Act

A summary of the Migratory Bird Convention Act is given herewith. This is the law which is based upon the treaty with the United States. Any enquires concerning this law should be addressed to the Commissioner of the Canadian National Parks, Department of the Interior, Ottawa, Ontario.

OPEN SEASON
(Both dates inclusive)

Alberta—Ducks, geese and coots, Sept. 15 to Dec. 15.

Wilson's snipe and sharp-tailed grouse, Sept. 15 to Dec. 14.

CLOSED SEASONS

There is a closed season in the spring of the year for the following birds:

Band-tailed pigeons, swans, wood duck, eider duck, crane, curlew, willet, godwit, upland plover, avocet, dowitcher, knots, oystercatchers, phalarope, stilts, surfbirds, turn-

The High Cost of Delay

We are threatened with one of the best crops we have had for years and a profitable price seems quite evident. Don't delay the purchase of goods you need. You not only risk shortage of goods but also that feverish rush to get into shape.

Wesco Pump Oilers

Will give you a constant supply of Oil. Your binder needs lots of oil.

EVERY CAN GUARANTEED

Machine Oil

We stock only the best. Heavy Castor or Threshers' Favorite will stay put. Ask those who use it.

Per Gallon 90c

Your Best Investment

is a good asset and keeps the business growing. It will bring you a profit up in short time. \$8.00 will give you a outfit, clean equipment of all sizes.

Save on Your Greases

We handle Axle Grease and Hard Oil in Bulk. Bring in your pail and save at least 5¢ a pound on your requirements.

Brace Wire

1,800 pounds of No. 9 soft, Black Wire awaits your order. Always useful round the farm.

Everything for the Kook Karr

Enamelware in Scotch Grey or Blue and White. Our stock will be complete. Table Cutlery in any quantity. Look over your list and place your order early.

Genuine Nickel Babbitt

For your high speed bearings this Babbitt is absolutely necessary. We have cheap Babbitt for slow moving machinery.

Tools of Quality and Merit

Crescent and Stillson Wrenches, Dasco Chisels and Punches, Dasco Machinist Double End Wrenches, Marcy Bearing Scrapers.

Look over our stock early and select your requirements.

To delay is costly to both of us. It causes you inconvenience and does not allow us time to keep our stock up to meet demands.

W. C. HOSKINS

Wagon Sets, Singletrees, Doubletrees

Helder Sets, McElmou and Truss Rod Sets carried in stock. Every set guaranteed against defects.

Galvanized Bottoms
For Grain Tanks

Carried in stock in sizes 40x132 in., made specially of heavy gauge iron.

Myers Low-Down Tank Pump

Built for capacity and service. Easy to get at the valves.

Myers' quality is universally known. Tank Pump Hose carried in 20 ft. lengths.

Your Tractor Demands Good Oil

We have "British American" and the famous "Enaceo" Motor Oils. Always dependable—always uniform.

We will carry you through on what oil and grease you need.

Gibraltar Extra Power Belting

We will have a complete stock of all staple Belts 1 1/2 to 6 in. widths. These belts stretch very little and give service where a good quality is required.

Get Up On Time

True Time Teller Alarm Clocks either in plain or ornate dial. Positively guaranteed. Every clock replaced that does not give service.

PHONE 12, CHAMPION

LONG LOUIE
CAFE

The Place to EAT

Remodelled throughout, re-decorated and painted.

Private booths for those who desire privacy.

The Best Meals for
the Money
Served in Town.

Fruits, Tobacco, Cigars and Soft Drinks.

Velvet Ice Cream

billiards

promotes good fellowship

A FEELING of cordial fellowship always pervades every billiard room. Indeed, every billiard table in a properly managed billiard room is a social center fairly radiating sociality and good fellowship.

Give billiards a trial on our tables. Many advantages broaden your field of opportunity. You will be impressed by the quality of the equipment we have provided for the enjoyment of the game.

You also will feel right at home with your friends in the atmosphere of warmth, courtesy and refinement that always is evident in this recreation center.

Give billiards a trial on our tables. Many advantages broaden your field of opportunity.

Alberta—Ducks, geese and coots, Sept. 15 to Dec. 15.

Wilson's snipe and sharp-tailed grouse, Sept. 15 to Dec. 14.

CLOSED SEASONS

There is a closed season in the spring of the year for the following birds:

Band-tailed pigeons, swans, wood duck, eider duck, crane, curlew, willet, godwit, upland plover, avocet, dowitcher, knots, oystercatchers, phalarope, stilts, surfbirds, turn-

The Movement Back to the Land

is growing daily and the Champion District affords exceptional opportunities to the homeseeker.

In 1925 individual production per farmer exceeded \$5,000 in grain and live stock.

Good Schools, exceptional railway service, telephones, etc., assure a modern community.

We have extensive listings in this territory, a few of which are quoted, providing a wide range in values and including some of the finest properties in the district :

Look Them Over

640 Acres, good improved farm land, 7 1/2 miles from station. Price \$40.00 per acre, or can be bought as going concern at \$50.00 per acre, \$14,000.00 cash. Balance can be arranged to suit at 7 per cent interest.

640 Acres, good improved farm land, 13 miles from station, 210 in summerfallow crop, 200 acres summerfallowed, owner gets 1/2 crop and pays 1/2 thresh bill. Price \$20.00 per acre, balance can be arranged at 7 per cent interest.

320 Acres, good improved land, 4 miles from station at \$35.00 per acre. Balance 1/2 crop at 7 per cent interest.

320 Acres good improved farm land, 8 miles from station, \$50.00 per acre, about 200 acres of good summerfallow crop, \$8000.00 cash, balance can be arranged.

320 Acres good land for sale at \$4000.00. Cash payment of \$2000.00, balance \$400.00 per year at 6 per cent interest.

320 Acres, right next to elevators, 200 acres in summerfallow crop, no buildings. Price \$15.00 per acre, \$5000.00 cash, balance 1/2 crop at 7 per cent interest.

320 Acres, improved land, 2 1/4 miles from station, 215 acres crop, can be bought as going concern including stock and implements at \$30.00 per acre, \$5000 cash, balance 1/2 crop at 7 per cent interest.

320 Acres good improved farm land, 6 miles from station, 100 acres summerfallow crop. Price \$50.00 per acre, including 1/2 per cent crop and all machinery and horses. \$5000.00 cash, balance 1/2 crop at 6 per cent interest.

320 Acres improved farm land, 2 miles from station. Price \$40.00 per acre, \$4000.00 cash, balance can be arranged.

320 Acres, improved land, 2 miles from station. Price \$40.00 per acre, \$4000.00 cash, balance crop payment at 6 per cent interest.

13,120 Acre Cattle or Sheep Ranch

Best of grass, fenced and cross-fenced and well watered. This acreage can be split three ways to suit purchaser. 600 Acres can be irrigated. Price \$6 per acre, one-fifth cash, balance divided over 6 years at 6 p.c. interest.

This is beyond question one of the finest ranching propositions available in Alberta.

10,000 Acres

In the Municipality of Clifton in parcels of 160 acres up priced from \$2.75 to \$8.00 per acre, including some splendid buys. Detailed description of many of these parcels will be printed in an early issue.

A Going Concern : 480 Acres good farm land, 1 1/2 miles from station; 200 acres summerfallow, 200 acres good wheat on summerfallow; good well 97 feet deep; barn with stabling for 14 head horses and 3 cows, and other buildings. 15 Head work horses, 3 milch cows, steer, 6 sets work harness, 2 sets driving harness, drill, cultivator, double disc, two sets harrows, 4-bottom disc plow, walking plow, bine, two buggies, pump engine, two wagons with grain tanks, iron truck with rack, tool, etc. Price \$56 per acre, \$12,000 cash; balance arranged.

WORLD HAPPENINGS
BRIEFLY TOLD

The man in Reading, England, whose radio loud speaker can be heard by his neighbor will be liable to a fine of £500.

Captain Postelnicu, a Romanian officer, faces trial by a special court martial because he slapped William S. Calverton, American minister to Romania.

Colonel Scott, a pioneer of the west who for many years was connected with the agricultural interests of the country and was a prominent member of the Winnipeg Grain Exchange, is dead.

Representatives of Vancouver will vote next week on a proposal on \$1,000,000 bylaw for carrying on the proposed civic centre scheme. The greater part of the money will be required for expropriation of private property.

Two noted Canadians who had been supporters of the scheme, Mr. and Mrs. John G. Ross, have withdrawn at the critical moment, all held by His Majesty. They were Hon. Francis Anglin, chief justice of Canada and Rt. Hon. George Perry Graham.

Dick Gurnhamson, reputed to be the 101 year old and oldest Indian in British Columbia, died recently at his home on the Esquimalt reserve.

Robert Alexander Baker, well-known advertising man and president of the Baker Advertising Agency, Toronto, is dead.

Twenty-nine persons are dead and four are blind from poison liquor in Buffalo and nearby New York and Eastern Canadian cities. Thirteen of the dead are from Buffalo. Three died at Lockport. The other thirteen died in cities on the Ontario Peninsula.

An increase of \$111,411,459 or 25.99 per cent. in the net earnings for the first six months of 1926 as compared with the same period of last year is the record of the Canadian Railways for the period January 1 to June 30, 1926.

Recent dismissal of colored waiters from the Canadian National Railways, during the summer, was a subject of protest in a meeting held in Montreal under the joint auspices of the United Negro Improvement Association and the Canadian League for the Advancement of Colored People.

60,000 Harvesters Wanted

Army of Harvesters Required to Gather the Crop on Prairies
It is estimated that about 60,000 extra men will be required to gather the harvest in Western Canada this summer. This army of harvesters will be drawn from the provinces of Eastern Canada, British Columbia and the United States. It is understood that Saskatchewan will need 35,000 men, Manitoba, 8,000 and 5,000 and Alberta, 12,000.

From points both east and west beyond the three prairie provinces of Manitoba, Saskatchewan and Alberta, men will be required to gather the grain available to certain central points in Western Canada for those going to work in the harvest fields. Return tickets will be issued at reduced rates to harvest hands providing they have worked at least a month in farms in Western Canada.

Was Original Peter Pan

The Boy Who Never Grew Up Now Grows Up at Wedding
"Peter Pan," the boy who never grew up, quite a grown-up man in the world recently.

Peter Llewelyn Davis, the original of Sir James Barrie's Peter's wading in the English sea, St. James died at the ceremony.

Peter's brother, Nicholas Llewelyn Davies, has married to the Honorable Mary James, daughter of Lady Northcote. He is one of Sir James' wards.

The big Medicine Hat plant of the Canadian Western Steel Corporation, which has been in operation for some years, has been purchased by the British States Horserace Manufacturing Company, of Erie, Pennsylvania. The latter is also negotiating for the purchase of Redpath's Rolling Mills, the equipment of which would be moved to Medicine Hat to enlarge the local plant for iron-rolling process.

British Use Doge Signs
Doge signs on goods have appeared for the first time in the shopping districts of London frequented by American tourists. The marks, quite evidently, are London made, as they are very much of the perpendicular variety, and lack the original Yankee twist.

Carcass lambs are killed when they are only a few days old, before the curl of their foreloin, in order to produce Persian lamb and Astrakhan fur.

Pulman porters measure the same way that amateur anglers fish—from tip to tip.

The man who poses as a lion in society is usually a bear at home.

Gandhi Would Reform India

Tells What Measures He Would Take If He Were Emperor

"If I were Emperor of India," Mahatma Gandhi, the great Indian Nationalist, told me, "I would prohibit the importation of intoxicating liquors and close down every distillery; I would summon the representatives of both Hindus and Moslems, and all religious sects to deprive them of all estates and wealth, and then lock them together in one room and open it only after they had settled their quarrels.

"I would intend the hand of fellow-citizens to be open to all, regardless of caste, color or creed; I would band the entire army of occupation in India, retaining only enough police to protect the citizens; I would guarantee a full and fair representation to every European as well as all other European enterprises; I would guarantee protection to all forms of religious worship, except that which is repugnant to the moral sense of mankind; I would not hold any other tribes as my slaves being held, but would cultivate their friendliness, and I would impose a protective tariff on all foreign cloth."

Hearts of Oak

British People Never Stand Higher in Respect and Confidence of Their World

The British as a political people never stood higher in the regard and confidence of the world. They were not steady as in a rock through the long and troublous crowding upon them in home and foreign and imperial affairs, there would be no hope of stability in Europe, and of avoiding anarchy in America. The British are the cornerstone of a tremendous arch, and when it falls, it will not fall.

The whole wide structure of the old world would crumble. In the eighth year the Armistice we are still holding firm, despite anxieties, disappointments, and the like, but still in the same time, but over besetting us from all quarters together in a way that might have worn out the heart and fibre of a less solid breed.—J. L. Garvin, in London Observer.

Manitoba Dairy Industry

Growth in Recent Years Has Been Phenomenal

The growth of the dairy industry in Manitoba was recently summed up by L. A. Gilman, dairy commissioner, for the province. In 1915, according to his statement, between 50 and 60 carloads of butter were shipped into Manitoba from Ontario and in 1916, 200 carloads, and in 1917, 300 carloads.

In 1918, 500 carloads, and in 1919, 1,250 carloads. The province had exported 325 carloads valued at \$2,000,000 and Alberta at 12,000.

From points both east and west beyond the three prairie provinces of Manitoba, Saskatchewan and Alberta, men will be required to gather the grain available to certain central points in Western Canada for those going to work in the harvest fields. Return tickets will be issued at reduced rates to harvest hands providing they have worked at least a month in farms in Western Canada.

Activity in Building

Encouraging State of Conditions in Canada Generally

Building was never more active in the Dominion, and the prospects for the future are bright. For the first six months of this year the total value of the building permits was \$36,000,000 compared with a total of \$2,452,000 for the similar period in 1925.

This activity in building in Winnipeg and in many other places throughout the Dominion is indicative of the encouraging state of conditions in the building industry in the Dominion. With the prospects for another good grain harvest, this year, farmers and business men in Canada are feeling optimistic.

Women Enter Legal Profession
Six more women have been called to the bar in London, indicating that an increasing number of them are taking up the legal profession as a means of livelihood. The names to be done in are Mrs. and Mrs. of the bar.

Mr. and Mrs. Lincoln, son of President of Lord Wrenbury, a lord of the appeal, and Miss Beng Heng Lin, of Penang, Straits Settlements. Miss Beng is the great Oriental woman to have been called to the bar. Her brother, Kao Seng Lin, also has been admitted to the practice.

British Use Doge Signs
Doge signs on goods have appeared for the first time in the shopping districts of London frequented by American tourists. The marks, quite evidently, are London made, as they are very much of the perpendicular variety, and lack the original Yankee twist.

Carcass lambs are killed when they are only a few days old, before the curl of their foreloin, in order to produce Persian lamb and Astrakhan fur.

Pulman porters measure the same way that amateur anglers fish—from tip to tip.

The man who poses as a lion in society is usually a bear at home.

Survey of Unoccupied Land

Manitoba Government Taking Agricultural Survey of the Province

The Manitoba Government has commenced an agricultural survey of unoccupied land in the province which when completed will enable the incoming settler with all available information on such lands. A total of 2,174 homesteads have been taken up in Western Canada this year. In addition 457 families have settled on 1,152 acres. Many people come to the western provinces under the government settlement scheme. The Canada Colonization Association has placed 643 families on 100,000 acres of land in the past year. All post-war immigration records were broken recently when 1,631 immigrants passed through Winnipeg in forty-eight hours.

To Manufacture Automobiles

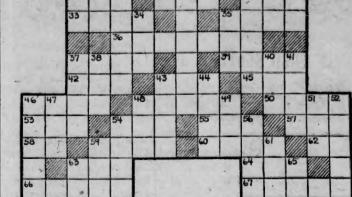

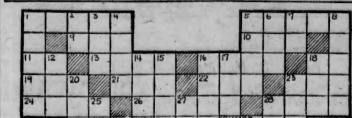

Engineering Firms in Australia Endeavor to Establish Industry

Four large engineering and electrical equipment manufacturing firms in New South Wales are combining to form a company to be established at Sydney to produce Australian-made motor cars. They intend to build a six-cylinder car suited for Australian conditions, and apply in its manufacture the mass production system. Representatives of the four firms met with the Australian Government with the suggestion of a subsidy to aid the new industry. The minister of trade and customs promised that any reasonable recommendation would be sympathetic, particularly considered by the cabinet.

Australia is the largest importer of U. S. automobiles.

SUNDAY SCHOOL LESSON

AUGUST 8

THE GIVING OF THE MANNA

Golden Text: Jesus said unto them, I am the bread of life. John 6:35.

Lesson: Exodus 16:1-36.

Devotional Reading: John 6:33, 40.

Explanations and Comments:

1—The People Complain of lack of Food. Verses 1-3—This is the third recorded "murmuring"; see the History of the Israelites. It is evident that we had died by the hand of the God of the land of Egypt." The people cried, "Who will give us meat?"—the flesh-pots, when we were in Egypt.

They remember the flesh-pots, but not the manna. Human nature does not change. Men still will have short memories. The spectacles of regal meat past blessings.

The Israelites even accused Moses of having brought them forth into the wilderness to kill them all with hunger!

It is worthy of remark that those who are wont to complain of the manna are wont to behave most ungratefully toward their "diverse" (Mites).

Levi and Kohath were sons of Jacob, and Jehovah spoke unto Moses, saying, "I will have thee to marmarize the children of Israel, that they may remember my name."—Exodus 16:10.

They were to eat the manna for a year, and to keep the Sabbath for a year.

After carefully "antiquing" the copy, he calmly carried away the original manuscript in his pocket, and, after a hasty examination of the manuscript, he said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

He then said, "I have found a copy of the original manuscript in the British Museum."

Answer to Last Week's Puzzle

435,530,000 Bushels of Grain Produced in Province

In 1925 Saskatchewan became a province two years ago, there were almost 60,000 farms with a little over 2,000,000 acres in crop, according to the provincial minister of agriculture.

With the new province there was a 10 per cent. increase in the production of grain, and the 1925 crop was 435,530,000 bushels.

In the period 1920-24, the average annual production was 370,000,000 bushels.

In the period 1910-14, the average annual production was 320,000,000 bushels.

In the period 1900-04, the average annual production was 260,000,000 bushels.

In the period 1890-94, the average annual production was 200,000,000 bushels.

In the period 1880-84, the average annual production was 160,000,000 bushels.

In the period 1870-74, the average annual production was 120,000,000 bushels.

In the period 1860-64, the average annual production was 80,000,000 bushels.

In the period 1850-54, the average annual production was 60,000,000 bushels.

In the period 1840-44, the average annual production was 40,000,000 bushels.

In the period 1830-34, the average annual production was 30,000,000 bushels.

In the period 1820-24, the average annual production was 20,000,000 bushels.

In the period 1810-14, the average annual production was 15,000,000 bushels.

In the period 1800-04, the average annual production was 10,000,000 bushels.

In the period 1790-94, the average annual production was 8,000,000 bushels.

In the period 1780-84, the average annual production was 6,000,000 bushels.

In the period 1770-74, the average annual production was 5,000,000 bushels.

In the period 1760-64, the average annual production was 4,000,000 bushels.

In the period 1750-54, the average annual production was 3,000,000 bushels.

In the period 1740-44, the average annual production was 2,000,000 bushels.

In the period 1730-34, the average annual production was 1,500,000 bushels.

In the period 1720-24, the average annual production was 1,000,000 bushels.

In the period 1710-14, the average annual production was 800,000 bushels.

In the period 1700-04, the average annual production was 600,000 bushels.

In the period 1690-94, the average annual production was 400,000 bushels.

In the period 1680-84, the average annual production was 300,000 bushels.

In the period 1670-74, the average annual production was 200,000 bushels.

In the period 1660-64, the average annual production was 150,000 bushels.

In the period 1650-54, the average annual production was 100,000 bushels.

In the period 1640-44, the average annual production was 80,000 bushels.

In the period 1630-34, the average annual production was 60,000 bushels.

In the period 1620-24, the average annual production was 40,000 bushels.

In the period 1610-14, the average annual production was 30,000 bushels.

In the period 1600-04, the average annual production was 20,000 bushels.

In the period 1590-94, the average annual production was 15,000 bushels.

In the period 1580-84, the average annual production was 10,000 bushels.

In the period 1570-74, the average annual production was 8,000 bushels.

In the period 1560-64, the average annual production was 6,000 bushels.

In the period 1550-54, the average annual production was 5,000 bushels.

In the period 1540-44, the average annual production was 4,000 bushels.

In the period 1530-34, the average annual production was 3,000 bushels.

In the period 1520-24, the average annual production was 2,000 bushels.

In the period 1510-14, the average annual production was 1,500 bushels.

In the period 1500-04, the average annual production was 1,000 bushels.

In the period 1490-94, the average annual production was 800 bushels.

In the period 1480-84, the average annual production was 600 bushels.

In the period 1470-74, the average annual production was 500 bushels.

In the period 1460-64, the average annual production was 400 bushels.

In the period 1450-54, the average annual production was 300 bushels.

In the period 1440-44, the average annual production was 200 bushels.

In the period 1430-34, the average annual production was 150 bushels.

In the period 1420-24, the average annual production was 100 bushels.

In the period 1410-14, the average annual production was 80 bushels.

In the period 1400-04, the average annual production was 60 bushels.

In the period 1390-94, the average annual production was 50 bushels.

In the period 1380-84, the average annual production was 40 bushels.

In the period 1370-74, the average annual production was 30 bushels.

In the period 1360-64, the average annual production was 20 bushels.

In the period 1350-54, the average annual production was 15 bushels.

In the period 1340-44, the average annual production was 10 bushels.

In the period 1330-34, the average annual production was 8 bushels.

In the period 1320-24, the average annual production was 6 bushels.

In the period 1310-14, the average annual production was 5 bushels.

In the period 1300-04, the average annual production was 4 bushels.

In the period 1290-94, the average annual production was 3 bushels.

In the period 1280-84, the average annual production was 2 bushels.

In the period 1270-74, the average annual production was 1.5 bushels.

In the period 1260-64, the average annual production was 1 bushel.

In the period 1250-54, the average annual production was 0.8 bushels.

In the period 1240-44, the average annual production was 0.6 bushels.

In the period 1230-34, the average annual production was 0.4 bushels.

In the period 1220-24, the average annual production was 0.3 bushels.

In the period 1210-14, the average annual production was 0.2 bushels.

In the period 1200-04, the average annual production was 0.1 bushel.

Telephones in Canada

Now Takes Second Place Among Countries of the World

According to recent statistics Canada, with 11,600 telephones to every hundred inhabitants, is second in the world.

Telephone lines are being extended to cover the entire country, and the number of telephone exchanges is increasing.

DOMINIONS AS INDEPENDENT AS MOTHER COUNTRY

London.—The *Times* of London, England, last week heard Right Hon. Mr. G. M. Amery, secretary of state for the dominions, answer a question regarding the constitutional difficulties in Canada to its satisfaction. I repeat that he expressed the attitude of the government on the house. In this manner J. H. Thomas, Labor member for Dethorpe, prefaced a speech with which he opened a debate on dominion-colonial relations in the House of Commons. Mr. Thomas said he wished to avail himself of this opportunity because general elections were pending in Canada and he desired to make clear to the world what Great Britain meant by self-government, and to emphasize that whatever advice given to the General Assembly during the parliamentary crisis in Canada was given on his own responsibility. He declared the dominions were entitled to the government-general on the strength of the "not knowledge" he had had of the situation and stressed that there had been no interference from Downing Street.

The Labor member said that "with one exception" he had received no suggestion in an American newspaper that, owing to the wicked action of the British Government, Canada should free herself from the tyrant. The *Times* of London reported: "The paper had also suggested that Canada be handed over to the United States on the terms of cancelling Great Britain's war debt to that country, and Mr. Thomas held this to show that the dominions were not attempting to understand the mentality and meaning of the British Empire."

With reference to the imperial conference, which Premier Baldwin announced in the commons, would meet on October 19, two weeks later, he said: "I am not yet Mr. Baldwin's spokesman on the point that only the representatives of governments, but also oppositions would be invited. Thus, he pointed out, party spirit would be eliminated and a greater continuity of policy would be secured."

Nothing in the nature of debate occurred on this part of Mr. Thomsen's speech, but Lieut.-Col. Amery, secretary for the dominions, in the course of his speech, in reply to a question of government, emphasized that the dominions were just as independent as the mother country. The character of their independence was the same as the British, only qualified by mutual responsibilities of mutual loyalty and co-operation.

Gives Reason For Coal Strike

England Returned Too Soon to Gold Standard Says Beaverbrook
London, Sept. 20.—Lord Beaverbrook, called recently on the White Star Liner to receive his tickets for Canada via New York. In a long article printed over his signature in the Daily Express on the eve of his departure, he declared the failure of the British proposal to return to the gold standard as the cause of the New York strike. The British shipping industry was due entirely to the British official policy of maintaining the gold standard. He intimated that the proposal to return to the gold standard was due to the U. S. for the purchase of the line was opposed by the British financial authorities on the ground that it would depress the value of the pound in New York and hamper the present exchange situation. He further stated that the coal strike is a result of the too early return of the gold standard as this raised the cost of selling coal in foreign countries so that the cost of production at home had to be lowered in order to keep up the possibility of competition in the world market.

U. S. Starts Gold Movement

Premium on Canadian Dollar Makes Export Profitable
New York.—A movement of gold from New York to Canada was started with a shipment of \$1,000,000 made by L. J. H. Miller, president of the Bank of Montreal.

The shipment was said to represent purely an exchange transaction as the premium on Canadian dollars has risen to the point where the export of gold from this country is profitable.

Canadian exchange is quoted at a premium of three sixteenths of one per cent, which is a shade above the gold shipping point.

The movement in Canada is attributed directly to the heavy financing which has been done recently in the New York market in behalf of industries in Canada.

Loss In Florida Storms

Property Damage is Estimated To Run Into Millions
Jacksonville, Fla.—Reports of damage where the storm had passed came in from the state with facilities almost restored. A damage from Nassau via Miami fixed the damage there at \$5,000,000.

A message received by the Munson Line in New York from the steamer *Florida* said that place was wrecked by the hurricane.

Miami's damage was principally to the Avocado pear crop. Palm Beach's playground suffered heaviest damage in the loss of more than a score of palm trees. The damage to the trees was down when a palm gave way.

Daytona Beach experienced damage to light and power lines, disrupted telephone service, uprooted trees, damaged trees and damaged small pleasure craft. After a night without lights, the power service was restored.

A run racing vessel was reported ashore several miles north of Ormond.

The storm took only two lives as it passed up the Florida coast, but it caused property damage estimated in the millions. The *Florida*'s load of \$100,000 in gold bullion and \$100,000 in silver bullion was safe.

The storm was the most violent to hit the state in 10 years.

The *Florida* was en route to New York with general cargo and 100 passengers.

Good Farms For Sale.

Do not buy a farm a long distance from home. You will only lose expense in delivering your farm products, but close in you have not only the saving of time and money but society which makes life worth living.

One half section, one mile from Champion, one-half in crop, all crop goes with purchase. Price \$35 per acre, one-half cash, balance to suit at 5% per cent.

Half section, six miles from Champion, 185 acres in crop, all crop goes to purchaser. This land is underlaid with heavy veins of coal which goes with the purchase. Price \$35 per acre, \$6000 cash and the proceeds of one-half of the crop. Balance to suit at 6% per cent.

40 Acres, three and one-half miles from Champion, 160 acres in crop, one-third of crop goes with purchase, price \$20 per acre, half cash, balance to suit at 7% per cent. Payments may be made by one-half cash if desired.

These farms are clear of encumbrances and have made the owners money. No better land in Alberta. The improvements are good on them. Open for sale until August 15th only as harvest will be under way by that time.

Address, Box 72, Champion, Alta., or call on

L. J. Adams.

R. Hackett and family have moved into the Adam's house recently vacated by J.H. Anderson.

A John Deere or a Frost & Wood Binder

Will solve your harvesting problems and make you happy. Sold by

Local and General

Found—Boy's coat, with belt. Owner call at Chronicle office.

Richard and Vernessa Peterson are visiting relatives here. Lemond Nelson has taken over the Chester Hyndman barbershop.

Mrs. Bassett and Mrs. Depue returned from Waterton Lakes on Friday.

M. (Ole) Palmer has secured a position in the Parker garage at Shouldice.

Mr. and Mrs. Orville Harper returned from a holiday at Waterton Lakes recently.

Mrs. Goo. Mark left for Calgary on Wednesday to spend the rest of the week.

Mrs. Bert Gill left on Saturday for a month's visit with friends in Spokane.

Miss Ruby Scott, of Prince Rupert, is visiting her sister Mrs. W. C. Hoskins.

Frank Johnson has been confined to his room for some time with rheumatism.

Mrs. W. C. Williamson left on an extended visit to Arrow Lake, B. C. on Monday.

Found—On Alston grounds, on sports day, woolen rug, Owner call at Chronicle office.

Mr. and Mrs. Carl Johnson and Bernard returned from a trip to Banff and the States.

Mrs. Frank Racher entertained a large number of friends on Tuesday evening in honor of Miss Ethel Long.

Note that J. Fred Scott will be here on Saturday, Aug. 7, and each Saturday thereafter, See ad.

Chat Matlock and family returned from an extended trip through the States, the eastern limit being in Maine.

Mrs. William Rhodes left for her home in Calgary on Monday, after visiting relatives and friends in this vicinity.

Mrs. Clarence Davis, who has been very ill, is able to be around again and expects to leave for Banff shortly.

Mr. and Mrs. Manhard moved to Blackfalds where they will visit their daughter, Mrs. A. J. Manhard for two weeks.

Mrs. J. N. Beaupre was judge of the fancy work and Mrs. J. Barker judge of the dairy produce at Lomond fair on Tuesday.

Mrs. F. C. Acock and Mrs. Thivierge spent a very enjoyable afternoon this week, the guests of Mrs. Guy Walker at the 101 Ranch.

Mr. and Mrs. H. Anderson and Mr. and Mrs. Nels Anderson motored to Lethbridge on Saturday to visit Mr. and Mrs. Johnnie Anderson.

C. W. Thornton, of the Bank of Commerce, left on Sunday night for Portland, Oregon, and before his return home intends visiting C. H. Crone, at San Francisco.

J. Clapp made a motor trip to Strathmore on Sunday, returning via Gleichen and Arrowood. He was accompanied by Mrs. Clapp, Mrs. Fields and R. Gardner.

Misses Ella Stephenson and Rachel Smith passed the recent examinations conducted by the Toronto Conservatory of Music in Lethbridge, taking honors in theory. Miss Stephenson also passed in piano.

Tony Kramer was considerably missed in the west end of town when he went away on his holidays as on the dullest days he made two or three trips around with a new car. Since George Depue secured his new Ford coach, however, he likes to drive by the grand display of new binders he has parked in this locality and traffic is again normal.

Quality & Service

All set for a Big and Busy Harvest.

This store is shipping merchandise in by the carload.

We have the brains and brawn to distribute these goods to customers who want quality and service.

By trading at this store you have relieved yourselves of the big problem of getting supplies on time.

We Carry The Goods

No order too large or too small to be taken care of.

No better service. No better quality of goods, and at prices unequalled in the west.

Trade where your business will be taken care of by experienced help.

Save time and worry by leaving your orders at this store.

Phone 34

McCullough Bros.

The lawn social to have been held at Mrs. G. F. Smith's on Wednesday evening, was transferred to Campbell's Hall owing to the unfavorable weather. The band was in attendance and a pleasant evening was enjoyed.

The most dangerous looking combination seen on the streets here for some time was George Taylor and the village scythe. George fancied he looked like Father Time, but after taking in the ensemble spectators reached the conclusion that if he had marched at the head of Wat Tyler's rebels with that scythe there would have been no England now.
